

THE SETUP TRADER ACADEMY

LEVEL 1

Institutional Trading Foundations

Professional Trading Program

Learn • Trade • Grow

"The journey of every professional trader begins with a strong foundation."

Markets Covered

Equity • Forex • Futures & Options (F&O;)

Powered by

The Setup Institutional Trading Framework™ (SITF)

Version 2026 • Professional Course Prospectus

Welcome to The Setup Trader Academy

Our Vision

To develop disciplined, knowledgeable and confident traders by delivering professional education based on structured processes rather than speculation.

Our Mission

To provide practical trading education that helps students understand market behaviour, manage risk professionally and build long-term consistency across Equity, Forex and F&O; markets.

Why We Exist

Most traders fail because they learn disconnected indicators without a complete trading process. At The Setup Trader Academy, we teach a structured learning path through our proprietary Setup Institutional Trading Framework™ (SITF).

Our Core Values

- Process Before Profit
- Protect Capital First
- Discipline Over Emotion
- Continuous Learning
- Consistency Through Structure

WHY CHOOSE THE SETUP TRADER ACADEMY?

More Than a Trading Course — A Professional Trading Education

At **The Setup Trader Academy**, we don't teach shortcuts or random indicators. We build disciplined traders through a structured learning system based on professional trading principles and our proprietary **Setup Institutional Trading Framework™ (SITF)**.

■ Institutional Trading Approach	Learn to think like a professional, not a retail trader.
■ Proprietary Framework	Master the Setup Institutional Trading Framework™ (SITF).
■ Professional Setup	Trading software, workstation setup and scanner configuration.
■ Practical Learning	Real market examples, live analysis and case studies.
■ Risk First	Protect capital before chasing profits.
■ Process Driven	Focus on discipline, consistency and execution.

What Makes TSTA Different?

Traditional Courses	The Setup Trader Academy
Indicator-focused	Process-focused
Theory-heavy	Practical learning
Random entries	Structured framework
Profit-first	Risk-first mindset
Short-term thinking	Long-term consistency

"Our goal is to create disciplined and independent traders who can make confident decisions in any market condition."

COURSE OVERVIEW

- Use scanners to filter quality opportunities.
- Apply disciplined risk management.
- Follow a structured trading process instead of emotions.

COURSE ROADMAP

Your Journey to Becoming a Professional Trader

This roadmap provides a structured learning path. Each module builds upon the previous one, ensuring you develop knowledge, discipline, and practical trading skills step by step.

01	Financial Market Foundations
02	Professional Trader Mindset
03	Trading Workstation Setup
04	Scanner Setup & Watchlist
05	Chart Reading Fundamentals
06	The Setup Framework™ (SITF)
07	Institutional Trading Concepts
08	Risk Management
09	Trade Execution
10	Professional Trading Routine
11	Performance Improvement
12	Live Market Practice

Program Outcome

By completing all 12 modules, students will gain a structured understanding of market behaviour, institutional trading concepts, scanner usage, disciplined execution, and professional risk management.

MODULE 01

Financial Market Foundations

Build a solid understanding of financial markets before learning trading strategies. This module introduces the essential concepts every professional trader should know.

Topics Covered	Skills You'll Gain
• Introduction to Trading	✓ Understand market basics
• Equity Market	✓ Identify different asset classes
• Forex Market	✓ Learn market participants
• Futures & Options (F&O)	✓ Understand trading terminology
• Market Participants	✓ Develop a strong foundation
• Trading Terminology	✓ Prepare for advanced modules
• Market Sessions	

Practical Activity

Open a trading platform, identify the Equity, Forex and F&O segments, and create your first watchlist of five stocks. Become familiar with the market interface before moving to Module 2.

Outcome: You will understand how financial markets operate and build the confidence to continue your professional trading journey.

STUDENT CODE OF CONDUCT

Building Professional Traders Starts with Professional Behaviour

At The Setup Trader Academy, every student is expected to follow a disciplined learning process. These principles help create consistency, professionalism, and long-term growth.

Professional Standard	Expectation
Discipline	Attend every session prepared and on time.
Practice	Revise concepts and complete practical exercises.
Risk Management	Always respect predefined trading rules.
Respect	Maintain professionalism with mentors and fellow students.
Journaling	Maintain a trading journal throughout the program.
Continuous Learning	Focus on improvement instead of shortcuts.

Our Promise

We are committed to providing a structured, practical, and ethical learning environment that empowers students to become disciplined market participants.

TRADING TECHNOLOGY & WORKSTATION

Build a Professional Trading Environment

Professional trading starts with the right tools. During this program, students learn how to configure a clean, efficient trading workstation for speed, clarity and disciplined execution.

Area	What You'll Learn
Trading Software	Recommended platforms and basic configuration
Chart Layout	Professional multi-chart workspace setup
Scanner	Installation, configuration and daily scanning workflow
Watchlist	Creating and managing high-quality watchlists
Internet & Hardware	Minimum requirements for smooth execution
Trading Routine	How technology supports your daily process

Professional Advantage

By using the same structured setup every day, students reduce distractions, improve preparation, and build consistent trading habits before entering the market.

A DAY IN THE LIFE OF A PROFESSIONAL TRADER

Professional Trading Routine

A successful trader follows a repeatable process every trading day. Consistency comes from preparation, disciplined execution, and continuous review—not from predicting the market.

Stage	Daily Activity
1. Prepare	Review global news, mark important levels and prepare mentally.
2. Scan	Run the scanner to identify high-quality opportunities.
3. Analyse	Study trend, market structure, volume and confirmations.
4. Execute	Take trades only when all rules of the Setup Framework™ align.
5. Manage	Respect stop-loss, targets and risk management rules.
6. Review	Evaluate every trade objectively after the session.
7. Journal	Record trades, screenshots, mistakes and lessons learned.
8. Improve	Refine your process and prepare for the next trading day.

Professional Principle

'Great traders don't chase opportunities—they prepare for them every single day.'

48–50 HOUR LEARNING ROADMAP

Your Journey from Beginner to Confident Trader

This program is designed as a structured **48–50 hour** learning experience. Each phase builds on the previous one, helping students develop professional trading habits through guided learning and practical application.

Learning Hours	Focus Area	Outcome
Hours 1–16	Build Foundations	Understand financial markets, trading terminology, mindset, and chart basics.
Hours 17–34	Develop Core Skills	Master scanners, market structure, risk management, and the Setup Institutional Trading Framework™ (SITF).
Hours 35–50	Apply & Improve	Practice trade execution, maintain a trading journal, review performance, and build consistency.

Program Outcome

After completing the 48–50 hour program, students will understand market fundamentals, use professional trading tools, apply disciplined risk management, and follow a structured trading process with confidence.

TOOLS YOU'LL MASTER

Professional Trading Tools & Resources

Throughout the 48–50 hour program, you'll learn how to use the essential tools that support a professional trading workflow. The focus is on building a repeatable process rather than relying on tips or guesswork.

Tool / Resource	Purpose
Trading Platform	Market analysis and trade execution
Charting Software	Professional chart reading and multi-timeframe analysis
Market Scanner	Filter high-quality trading opportunities
Watchlist	Track shortlisted instruments efficiently
Trading Journal	Review performance and improve decision-making
Risk Calculator	Maintain disciplined position sizing
Daily Checklist	Follow a consistent pre-market and post-market routine
Templates & Worksheets	Structured practice and review

Professional Outcome

By mastering these tools, students will be equipped to prepare, analyse, execute, review and continuously improve using a structured professional workflow.

READY TO BECOME A PROFESSIONAL TRADER?

THE SETUP TRADER ACADEMY

Your journey doesn't end with learning a strategy—it begins with building the discipline, process, and mindset of a professional trader.

What You'll Master With

✓ Structured Trading Process	✓ Professional Risk Management
✓ Institutional Trading Mindset	✓ Scanner & Watchlist Workflow
✓ Chart Reading Confidence	✓ Trading Journal System
✓ Practical Market Experience	✓ Certificate of Completion

"Professionals don't chase the market. They prepare for it."
